

## The Mahoutokoro Anime Checker

Not all anime and manga are allowed in our school due to the young wizard protection law of the Japanese ministry of magic. They were banned for circa 40 years until the new headmaster Masao Nakamura released this ban and developed by the help of his students a long list which anime and manga are allowed and which are still banned due to their age requirement. The interactive digital version of this list was developed by the Ravenclaw Programming and Hardware Group Corp. in Edinburgh, UK.
